ZERTO

Founded: 2009 www.zerto.com Revenue: \$50M-\$100M 617.993.6331

27-43 Wormwood St. #530 Boston, MA 02210

Company Summary: Zerto offers enterprise-class disaster recovery and business continuity software for virtualized data centers and cloud environments. As enterprise organizations migrate applications to virtualized or cloud-based infrastructure, traditional array-based business continuity/disaster recovery solutions frequently become more complex and difficult to scale. However, Zerto's hypervisor-based solution is optimized for a virtual paradigm and provides greater flexibility, better asset utilization, and reduced operational and maintenance costs. The company's DRaaS business has served as a growth engine, launching it to obtain over 5,000 customers.

Products/Services: Zerto offers Disaster Recover products on-premise and in the cloud - private, public, or a hybrid of both. The company's award-winning, hypervisor-based, replication software enables alignment for business continuity and disaster recovery plans with IT strategies. By using hypervisor-based data replication, businesses can reduce disaster recovery complexity and hardware costs and still protect mission-critical virtualized applications.
