

Online Zerto Certification and Training

Whether you're on the technical or on the business side of things – Zerto has a learning track for you!

Zerto Certified Professional: Enterprise Engineer

This deep-dive technical certification covers installation, setup and management of Zerto. You'll gain deep knowledge of Zerto's key components and recovery operations data flows. To achieve this certification, you'll also complete a hands-on lab and exam.

Intro to Zerto for Azure*

This technical course introduces Zerto with Microsoft Azure. Topics include benefits and use cases, as well as hands-on walkthroughs of setting up a Zerto Cloud Appliance via the Azure Marketplace, installation of Zerto, and configuring protection of VMs to and from Azure.

Zerto Certified Professional: Cloud Service Provider

This technical certification available to Zerto Alliance Partners informs cloud service providers how to set up and manage disaster recovery as a service (DRaaS) and intra-cloud disaster recovery (ICDR) with Zerto. *Zerto Alliance Partner exclusive*

Intro to Zerto for AWS*

This technical course introduces Zerto for Amazon Web Services. Topics include the benefits & use cases, as well as key AWS components and their role in Zerto architecture. It also includes a walkthrough of setting up a Zerto Cloud Appliance, then protecting VMs in a VPG that is replicating to that ZCA in AWS.

Introduction to IT Resilience*

This course is foundational non-technical training available to all learners in myZerto University. The training introduces IT resilience as the best strategy for businesses looking to drive digital transformation. Through a mix of videos and interactive e-learning, the course then shows how & why Zerto is the industry leader for IT resilience.

Zerto Foundations*

This course is a self-paced introductory training that covers the key concepts, features, and workflows of Zerto's IT resilience platform. This course is recommended for both technical and non-technical audiences.

** Training only, no certification offered*
