

## Online Zerto Certification and Training

Whether you're on the technical or on the business side of things – Zerto has a learning track for you!

### **Zerto Certified Professional: Enterprise Engineer**

This deep-dive technical certification covers installation, setup and management of Zerto. You'll gain deep knowledge of Zerto's key components and recovery operations data flows. To achieve this certification, you'll also complete a hands-on lab and exam.

### **Intro to ZVR for Azure\***

This technical course introduces Zerto with Microsoft Azure. Topics include benefits and use cases, as well as hands-on walkthroughs of setting up a Zerto Cloud Appliance via the Azure Marketplace, installation of Zerto, and configuring protection of VMs to and from Azure.

### **Zerto Certified Professional: Cloud Service Provider**

This technical certification available to Zerto Alliance Partners informs cloud service providers how to set up and manage disaster recovery as a service (DRaaS) and intra-cloud disaster recovery (ICDR) with Zerto. *Zerto Alliance Partner exclusive*

### **Intro to ZVR for AWS\***

This technical course introduces Zerto for Amazon Web Services. Topics include the benefits & use cases, as well as key AWS components and their role in Zerto architecture. It also includes a walkthrough of setting up a Zerto Cloud Appliance, then protecting VMs in a VPG that is replicating to that ZCA in AWS.

### **Introduction to IT Resilience\***

This course is foundational non-technical training available to all learners in myZerto University. The training introduces IT resilience as the best strategy for businesses looking to drive digital transformation. Through a mix of videos and interactive e-learning, the course then shows how & why Zerto is the industry leader for IT resilience.

### **Zerto Certified Associate**

This course is a self-paced introductory course that covers the key concepts, features, and workflows of Zerto's IT resilience platform. This course is recommended for both technical and non-technical audiences.

\* Training only, no certification offered
