Google Workspace

Is Your Data Safe?

Google Workspace doesn't include automatic backup and offers only minimal data protection and availability features. On top of this, Google won't cover any data loss caused by internal errors, malicious actions, ransomware, or other cybercrime.

When you consider that human error, hacking, and insider threats constitute 93% of reasons for organizational data loss (per the Aberdeen Group) and that the average data recovery cost of these situations falls in at \$150,000 (according to a recent cybercrime survey from PwC), it's clear that recovery with Google Workspace is not a workable option. You need a separate solution to keep your data protected.

Backup Your Google Workspace Data

**TRY ZERTO BACKUP FOR
GOOGLE WORKSPACE**

Zerto Backup for Google Workspace is a secure, cloud-to-cloud backup service:

Full Protection of Your Cloud Data

Cloud-to-cloud backup ensures full protection of your Google Workspace data across your apps—and with Zerto's automated backup to a physical, independent, and safe location, you can access your data anytime, even if your SaaS application is experiencing downtime.

Daily, Automated Backup

Zerto Backup for Google Workspace is a set-it-and-forget-it framework, providing daily backup of your Workspace, depending on your needs.

Customized Retention

By default, Zerto will retain your Google Workspace data for 12 months, although retention periods can be set as needed with no limits.

Unique Protection with Blockchain

Zerto Backup for Google Workspace does not allow overwriting of existing backup data. Combine that with the 256-bit encryption of backup data using blockchain, the system is built to be tamper-proof and immutable.

What Is Backed Up

Zerto will automatically backup all of your data across your Google Workspace Apps:

- Calendar
- Gmail
- Google Drive
- Google Team Drive
- Google Sites
- Tasks

Easy Search & Restore

The solution's unique Search & Restore feature allows you to find and restore data at any time with a simple keyword search. Within this search, you can even scroll back and forth using our granular, intelligent functionality, and when you find what you're looking for, you can run an in-place restore, including related objects.

Easy Setup

3 steps, 5 minutes—that's all it takes to secure your Google Workspace data, with no on-premises installation required. The flexible status helps you stay in control while the secure logging and auditing tools help you stay in compliance.

Zerto Backup for Google Workspace Gives You

- Backup—Search—Restore, all in one solution.
- Automated, daily backup to an independent location, and 24/7 availability of backups.
- The broadest coverage on the market.
- Quick search function.
- Easy and unique granular, in-place, and point-in-time restore with multiple target options.
- Unlimited retention
- 100% cloud-based system, with nothing to manage on premises.
- Compliance enabler for GDPR and HIPAA.
